11. SPORT PRESENTATION

Sport presentation is the audio-visual presentation of a sport in each competition venue of a FISU University World Cup.

Sport presentation has become a vital instrument of major sport events and is key to delivering the World Cup sports successfully. It aims to attract, educate, and entertain live audiences at the competition sites and elevates the sport experience for all client groups.

Sport presentation comprises elements such as video clips, sounds, announcements, World Cup mascots, creation of fan teams, the involvement of cheerleaders and other innovative elements that increase the understanding of the sport and the attractiveness of the competitions. It is complex and must be carefully planned to the second, as it can have a substantial impact on the operation of broadcasters and venue teams. Therefore, close collaboration and early communication with broadcasting, awarding ceremonies and the ICT is essential.

Sport presentation planning should ground on one common creative theme that fits with the specific World Cup concept. Nonetheless, as every sport has its own unique characteristics, it is important that each sport presentation is tailored to the particular sport while still embracing the main theme.

Due to its complexity, FISU suggests the OC to consult expert advice for assisting the OC in developing their sport presentation strategy in an early stage of the event lifecycle. Considering the importance of sport for the sport presentation planning, the OC is recommended to place sport presentation under the responsibility of the sport manager of the Organising Committee.
